LOCAL GIVING. BETTER LIVING.

Community Foundation of Howard County 2023 Community Grants

Application Due Date: Tuesday, October 31, 2023 at 11:59 p.m.

The Community Foundation of Howard County **Community Grants Program** seeks to provide flexible operational grant support to nonprofit organizations that are providing programs and services that transform our community, improve quality of life and create a brighter future for all those living and working in Howard County.

Past funding awards have generally supported organizations providing programming and services in Howard County and to people living and working in Howard County. Organizational missions have focused on the areas of human services, arts, cultural and environmental activities, educational priorities and youth opportunities.

The Community Foundation of Howard County wants to fund initiatives that will create positive change and uphold a mission of improving the quality of life, especially those that are most vulnerable in our community. By distributing flexible grants that allow nonprofits to achieve their mission and vision, together we can build a stronger more vibrant community for all. Local giving means better living for all.

Submitted [grant applications](#) should communicate the significance and sustainability of programs and services, concrete evidence of the impact the organization has on the community, as well as demonstrated organizational capacity to successfully implement efficient and effective programs and services.

The [Community Grants Program](#) provides funding for organizational operational needs. These grants are unrestricted sources of income to help an organization carry out its goals without imposing the requirement to develop activities directly attributable to the grant.

This year we will be offering opportunities for non-profit organizations with operational budgets above \$100,000 and for non-profits organizations with operational budgets below \$100,000.

Based on the availability of funds, in 2023 the Foundation will award grants in two categories:
